PROFESSIONAL EXPERIENCE

Data Systems Supervisor

White House Communications Agency, Us Army, Washington, DC.....05/2007- Present Day
Professionally supervises ADP services for 400 users spanning 5 networks at 12 locations globally
Spearheaded the installation of over 450 computers and users in active directory, maximized efficiency of the Presidential staff and the United States Secret Service
Hand selected to sign for and be accountable for \$2M of ADP assets, over 500 COMSEC line items and 12,000 Presidential documents; resulted in 100% accountability.
Created proactive procedures for problem preventions and resolutions, and administrated and maintained environment security involved with administering security alerts to White House senior staff and weekly data backups.
Expertly monitored the operation and maintenance of the Defense RED Switch Network (DRSN) is a network of secure command and control switches that provide high-quality secure voice and conferencing capabilities to the senior staff of the President of the United States and Military Departments (MILDEPs), the Combatants Commanders, Major Commands (MAJCOMs), National Military Command Center (NMCC), North Atlantic Treaty Organization (NATO) as well as other Government departments and agencies, and Allies

DAVID L. YOUNG

Top Secret / SCI Security Clearance

Automations Noncommissioned Officer In Charge (NCOIC)

HHT, 7-10 CAV, 4ID (M), FORT HOOD, TX.....03/2003-04/2007

Used Joint Network Node (JNN) which is a mobile satellite used to communicate as voice-over-IP and dynamic IP technologies and systems that connect both secure SIPR and non-secure NIPR internet to global military networks, over the course of a yearlong deployment in Iraq.
Single handedly transitioned over 400 computers and 810 users into the Army's Active Directory Network Program successfully.
Integrated and sustained the brigade's tactical network using the Command Post Node Satellite System
Seamlessly executed the transition of Army Battle Command Systems (ABCS) which include Maneuver Control Systems (MCS), All Source Analysis Systems (ASAS), Advanced Field Artillery Tactical Data Systems (AFATDS), and The Force XXI Battle Command, Brigade & Below/ Blue Force Tracking (FBCB2/BFT) systems from the Command Post Node to the fiber optic network of Camp Taji, Iraq.
