## Deployment

SCCM 2007/SMS 2003 software distribution and package creation using SMS Installer  
 Design and implementation of SCCM 2007/SMS 2003 Reporting including customization of new reports using Transact SQL queries  
 Windows 2003/2000 Active Directory Infrastructure design and implementation  
 Forrest and Domain level migration including FSMO Roles  
 DNS infrastructure design and implementation  
 Design and implementation of new AD Organizational Unit company standard including OU delegation and WMI security  
 Group Policy creation and support including GPMC, RSOP and Group Policy filtering

## CONSULTING ASSIGNMENTS

## TSFNetwork

3/07 – 10/07 United Federation of Teachers, Welfare Fund  
 (SMS 2003 Architect, Active Directory Infrastructure Design)

SMS 2003 infrastructure design and implementation  
 Windows 2003/2000 Active Directory Infrastructure design and implementation  
 DNS infrastructure design and implementation  
 Design and implementation of new AD Organizational Unit company standard including OU delegation and WMI security  
 Design and implementation of Security Patch management and Software Updates using the SMS 2003 Inventory Tool for Microsoft Updates  
 SMS 2003 software distribution and package creation using SMS Installer  
 Design and implementation of SMS 2003 Reporting including customization of new reports using Transact SQL queries  
 Data Transformation of SQL 2000 databases using DTS  
 Windows 2003 Server build and configuration of DC to company standard  
 Disaster Recovery planning, simulation and documentation of Active Directory  
 Domain Controller removal from Active Directory including manual metadata cleanup  
 Forrest and Domain level HUB migration including FSMO Roles

## MarTek Solutions

5/06 – 12/06 WPP - Parent Company of Many of the World's Top Advertising Companies such as Young & Rubicam, J Walter Thompson, Ogilvy & Mather and 233 companies Worldwide

Core Media Technologies (IT Division of WPP) (Active Directory Infrastructure Engineer)

Global Enterprise Active Directory Infrastructure implementation  
 Windows 2003/2000 Forrest and Domain level component implementation  
 Active Directory New Site creation including subnets, site links and site objects  
 Forrest and Domain level HUB migration including FSMO Roles  
 AD Organizational Unit creation including implementation, delegation and security  
 Remote Windows 2003 Server build and configuration of DC to company standard  
 Group Policy creation and support including GPMC, RSOP and Group Policy filtering  
 Exchange 2003 Server Implementation and Support including SMTP connectors  
 Exchange 2003 Server mailbox creation, moves and migration from Lotus Notes  
 AD 2003/2000 Domain Controller and Exchange 2003 Server incident monitoring such as CPU, Memory and Hard Drive utilization  
 AD 2003/2000 and Exchange 2003 3rd level support for Local IT community  
 DFS Domain Root, Link and share implementation including folder replication  
 New Domain Controller creation in a new or existing site  
 Active Directory Disaster Recovery including manual metadata cleanup  
 DNS implementation, configuration and support

## MPL SYSTEMS

12/03 – 10/05 Citigroup (Technical Projects' Team Leader)

Client and Consultant Team Lead of a 900 Site North American Enterprise-wide Server migration to Active Directory from legacy NT 4.0 Domains averaging 40-50 users per site and 14 Jumbo 2 segment sites averaging 100-150 users per site including: AD Domain Controllers Implementation, Application Servers upgrades, Total Rack/hardware equipment upgrades, Server Administration application upgrades and Data/User Migrations  
 SMS 2003 Multi-tier migration from SMS 2.0 including 390 Primary Sites and 500 Secondary Sites  
 Operating System Deployments of branch workstation images to local Distribution Servers using SMS 2003 followed by 23,000 Nextgen client builds using Altiris Express Deployment Solutions  
 Team Leader of Vulnerability Wrap packages upgrade for Private Client using SMS 2003, Altiris Express Deployment Solutions and internal Technical Project Administration utilities.  
 Backend distribution of packages using proprietary administration utilities and SMS 2003/2.0  
 Project Coordination of Video Server, Printer and Scanner installation and configuration  
 Coordination of pre-conversion preparation with branch administrators, managers, and onsite technicians  
 Responsible for training and supporting a team of 50-60 consultants in reaching client departmental goals which ranged from efficiently utilizing internal proprietary utilities to correct coordination of branch migrations with local System Administrators and HP Lead Technicians  
 Remote server builds via server RILO Board connection, configuration and troubleshooting using a combination of proprietary utilities  
 VB Script creation for automation of preparatory processing toward branch Migration  
 Remote troubleshooting of failed systems using SMS 2003/2.0, Registry editing techniques

## MODIS, Incorporated

11/00 – 12/03 Con Edison (LAN Support)

Project lead in many server consolidation and Windows 2000 migration projects  
 Support and administration of SMS 2.0/1.2, SQL 2000/7.0, Active Directory, and DHCP  
 Server management of Compaq DL/ML/6000/5000 servers in a 20 branch Con Edison Enterprise  
 LAN administration of over 30 Windows 2000/NT 4.0 servers in a 1500 user node environment

Project lead in many server consolidation and Windows 2000 migration projects  
 Network support including sniffer tracing to insure data transfer across multi-link and sonnet lines  
 Server and Workstation builds including creation of standard images for deployment  
 Authored instructional documentation for technical staff and user community for new company standards and contracts/Service Level Agreements for departmental budgets  
 Server data migration including backup and restore of server and user home directories also daily incremental/differential and full server backup using Backup Exec  
 Implementation of system, group and workstation/user policies, assigning/revoking permissions to users/groups, and other user account management such as account creation and management

MARTIN PROGRESSIVE, LLC

6/00 – 11/00 Solomon Smith Barney (Server Migration)

North American Enterprise-wide migration of SSB branch servers from NT 3.51 to NT 4.0 proprietary standard  
 Remote server conversion, configuration and monitorization using Microsoft BackOffice utilities such as SMS 2.0/1.2, SQL 6.5, and SNA Server 4.0, TCP/IP utilities, and proprietary scripts  
 SMS 2.0 migration from SMS 1.2 including deployment of SMS client to all branch workstations  
 NT server data migration including backup and restore of server and user home directories using arcserve, data migration batch files and backend remote utilities  
 Branch server synchronization with PDC and monitoring services using Server Manager utilities  
 Printer Queue setup and configuration using TCP/IP, DLC, and Lexmark utilities  
 Coordinate preconversion preparation with branch system administrators, managers, onsite technicians and SSB team leaders while gathering branch information using network resources

2/98 – 6/00 LINCOLN COMPUTER SERVICES, INC.

Client Base

7/98 – 6/00 Memorial Sloan Kettering (NT Migration)

Migration from Novell Netware 4.11 to Windows NT 4.0 including user home directories, local data transfer from Win95 to NT 4.0 workstations and user desktop customization  
 Disk-to-disk /Server-to-disk Ghost imaging for deployment and repair of standard desktop  
 Rollout of Windows NT 4.0 workstations with Compaq PIII hardware  
 User and group account setup including implementation of system, group and workstation/user policies, assigning/revoking permissions to users/groups, and assigning and resetting passwords  
 2nd level support including one-to-one local and remote user walk through and instruction.  
 Troubleshooting NT connections to domain and other network connectivity issues  
 Upgrade and test new system software through back-end distribution utility.

2/97 – 7/98 Orrick Herrington & Sutcliff (2nd level Support)

Rollout of Windows NT 4.0/95 and Lotus Notes 4.6 for LANGroup using Ghost imaging tool  
 Build, configure and customize workstations to departmental standards  
 Local user account setup, and network connectivity of all NT/95 clients including TCP/IP printer installation, also troubleshooting problems during and after migration.  
 2nd level support including one-to-one local and remote user walk through and instruction.  
 Troubleshooting NT connections to domain and other network connectivity issues  
 Printer Queue setup and configuration using TCP/IP, DLC, and Lexmark utilities

2/96 – 6/98 INTERIM TECHNOLOGY

Client Base

1/98 – 6/98 MTV Networks (Novell Migration)

Novell NetWare 4.1x Client side server migration and support  
 Build, configure and customize workstations to departmental standards  
 Desktop Ethernet and Token Ring conversion  
 2nd level support including one-to-one local and remote user walk through and instruction.

7/97-12/97 J&H Marsh & McLennan (Workstation Deployment)

Build, configure and customize workstations to departmental standards,  
 Rollout of Windows 95, Lotus Notes, ccMail, Smart Suite and Office 97, Ghost imaging;  
 Desktop support of all installations: Compaq, HP, IBM Laptop/Desktop hardware, installation and configuration of network adapters,  
 TCP/IP-IPX/SPX compatible protocols, and network connectivity troubleshooting.

2/97 – 7/97 New York University (2nd Level Support)

Tech Support of hardware and software in a WinNT 4.0/Novell environment  
 Win95 configuration, troubleshooting, IRQ and communication conflict resolution, repair and network connectivity;  
 PC/Mac inventory for Y2K project, using drive mapping to Tattletech/Sysconfig software

2/96-7/96 Brooklyn College (NT Deployment)

Rollout and support of Windows NT 4.0 and Microsoft Exchange client 4.0  
Hardware, troubleshooting, IRQ and communication conflict resolution configuration, and network connectivity

9/85-11/93 Merrill Lynch Money Markets Inc., (Money Markets Instruments Specialists)  
Automation of Federal Reserve transaction tracking through design and implementation of Advanced Lotus macros  
Monitoring Commercial Paper, Medium Term Notes, Bankers Acceptance, and other Money Market instrument transactions through design and implementation of Advanced Lotus macros  
Reconciliation of Commercial Paper Money Market instrument trades  
Reconciliation of Medium Term Notes, Bankers Acceptance and Certificate of Deposit Money Market instrument trades

EDUCATION /TECHNICAL TRAINING

2/01-8/03 Con Edison Learning Center  
Windows 2000 Professional, Server, Directory Services and Network Infrastructure; Magic 7.5

5/00-8/00 EAI Consulting & Training INC.  
Unix, Sun Solaris 7 System Administration I & II

11/98 Aerotek Strategic Learning Labs  
Implementing/Supporting Windows NT 4.0 Workstation and Server (MCP)

9/93-5/98 City College of New York, (Part Time)  
Candidate for Bachelor of Electrical Engineering

3/89-12/90 Merrill Lynch Inc.,  
Systems Professional Development, Advanced Lotus Macro implementation
