Michael T. Crooks
 Microsoft Systems Administration / Operations / Technology
 184 Barracuda Street - Bayou Vista - TX 77563

BUSINESS PURPOSE AND FIT

Support of Microsoft business infrastructure, connectivity, user administration with results.

Leading with experience in the latest versions of Microsoft Windows Server and Microsoft Exchange Servers in a clustered environment.

Possess strong knowledge of Active Directory in enterprise level environment.

Experience administrator and troubleshooter with Exchange and Active Directory, using various Exchange and Active Directory management tools.

Performed large scale mailbox moves, migrations and routine user pruning without loss of data.

Implemented Microsoft Exchange Server Disaster Recovery Failover; Cluster technology; Redundancy; and System failover for email.

Supported and maintain multiple Blackberry Enterprise Servers with over 700 mobile users.

Managed spam, virus scanning, and proactive monitoring in a 2500 message per hour environment.

I have managed concurrent projects in a formalize fashion. I'm familiar with ITIL, SDLC and proficiency in Microsoft Visio, Microsoft Excel, and Microsoft Word.

I have work very closely with the CIO and Department VP on capital project budgets and costs savings; as previous budget was 17 million dollars, one of the largest in the company.

The results: • Facilitated positive and controlled grow of the Exchange environment as company's Exchange user group grew from under 100 users to over 25 thousand. • Provide 99.9 percent uptime on the company's mail and messaging infrastructure • Integrated and merged acquired companies Exchange users and AD forests into ours without loss. • Reduced desktop virus attacks by 99%.

CORE COMPETENCIES

Properly upgrading and maintaining the Exchange Server environment while providing timely delivery of user's mail, insuring mail system integrity and security, maintained patching levels up to date, and provided data protection by requirements.

Delivering 24 by 7 availability to e-mail and communication services across the entire company's enterprise.

Managing Exchange configuration, provide troubleshooting and disaster recovery while insuring revenue-generating work continued with-in the company.

PROFESSIONAL EXPERIENCE

President / Manager

Mick Network LLC – Bayou Vista, TX - April 2008 to Present

Spent the last two years creating a multifaceted E-commerce company from the ground up. Designed, built, scripted, and coded over 50 websites in the companies current network of sites. Managed day to day operations of a growing company; and at present that company now operates with little additional effort on my part.

Manager of Networks and Telecommunication

Chico's FAS Inc., Symbol - CHS - Fort Myers, FL - Sept 1997 to April 2008

Responsibility for the company's datacenters including their design, growth and support. Supervised a server platform team that administered, secured, and monitored over 250 servers along with supporting hundreds of user and system applications. Directed the user desktop and application support teams; increasing user satisfaction scores every year. Supervised the telecommunications groups support efforts; while saving the company millions in telecommunications costs. Managed the exponential technology growth and huge increases in user base while the company grew from 80 million dollars to 2 billion dollars a year in just over 10 year's time. Designing and managed the construction of 150 miles of new infrastructure cabling while providing 99.9 percent uptime to current users. Used strategic IT planning to forecast a five year capital project budget that aligned with company needs and growth. Monitored expenses using cost avoidance which saved over 3 million in communication costs alone. Wrote several million dollar RFP, negotiated vendor contracts and managed IT purchases for the department which had a 12 million dollar budget in 2008. Had several published articles written about the technological advances that were introduced and implemented at company.
