Mitchell Potter3416 Dundalk DrTallahassee, FL 32309
SUMMARY

To gain a challenging position as a cybercrime professional/networking administrator.

QUALIFICATIONS

I have been in the IT field for 11 years and I have worked on multiple systems. I am a hard worker and I always strive to learn more. I am proficient in server support, backups, security, operating systems, networks and SMS. I have experience with IBM and HP tape libraries with fiber and private networks. I implemented a disk to disk to tape solution for backups. I have implemented Nessus as a vulnerability scanner.

WORK EXPERIENCE

2006-Systems Project Consultant

Florida Department of TransportationTallahassee, FL

Responsible for server installs, maintenance, and patches. Responsible for the backups and restores for all of the Central Office servers and statewide Exchange system. Responsible for documentation and project planning for future growth with backups and restores. Make sure servers are in correct OU's for patch deployment and policies. Implemented Puredisk in Central Office. Responsible for security of servers and ensuring servers are up to date with software and operating system

patches. Primary for Nessus vulnerability scanning of the servers for Central Office. Antivirus, multimedia server, wowza server. Analyze web and nessus logs in order to secure those systems.

Employee of the Quarter

Excellence in Teamwork

2004-2006Technology Deployment Analyst

Florida Department of TransportationTallahassee, FL

: Responsible for creating, modifying, deploying group policies. Creating msi packages for deployment from either group policy or through SMS. SMS administrator for 1500 clients. Responsible for creating images for the RIS server for deployment of operating system images. Responsible for installing and maintaining servers for Central Office. Maintained computer/user accounts in active directory.

2001-2004LAN Administrator

Florida Department of TransportationTallahassee , FL

: Responsible for 200+ users, desktop and server support. Software support. Maintained 100 servers from backup servers to SAN servers. Troubleshoot hardware/software problems. Trained users on new technologies. Respond to help desk calls.

1998-2001Assistant LAN Administrator

Department of TransportationTallahassee, FL

To assist the LAN Administrator in maintaining the network.

Troubleshoot hardware and software; install all types of hardware to personal

computers, and troubleshoot network connectivity issues. Answer calls for technical assistance and efficiently resolves user problems

requests. Assist with the technical development of the OOC infonet web site. Responsible for the backup of the LAN, upgrades, and maintenance to the servers and workstations.

-1998ISS Assistant

Department of RevenueTallahassee, FL

Responsible for the security on the Unisys Mainframe. Created access to different screens, solved problems due to access failure or access needs. Helped with adding security to Unisys Mainframes. Constantly maintained the mainframe security accounts on Unisys, Mapper, and Demand. I ran queries to update different issues and also prepare security documents and procedures to follow when dealing with different issues.
