Résumé for:
Nathaniel Smith, Jr.
915 E. Wadsworth Street
Philadelphia, PA 19150

Cellular
E-mail

CAREER OBJECTIVE:

To gain a Senior Server Engineering/Administration position where I can utilize my experience, especially on the WINTEL platform, and knowledge of new technology and the industry to efficiently and effectively do my job.

PERSONAL ATTRIBUTES:

I am team orientated (but work just as well alone), well organized, attentive to detail, goal orientated, shirtsleeve, get it done sort, that believes with proper fore thought, anything is possible. I have extensive support and training background; along with entrepreneurial, managerial and supervisory experience.

LATEST ACCOMPLISHMENTS:

? Mindteck, Inc.: VMWare ESX 3.5 with Virtual Center Console 2.5 with a 600 TB HP EVA SAN to house virtual servers and MS Active Directory for the establishment of a lab Environment, and global Migration and Consolidation of 10,000 Servers (DC, Exchange, File, Print, SQL and Oracle), along with mentoring junior team mates.
 ? Senior Windows Management Engineer at TAC Worldwide/John Hancock Insurance: Microsoft Operations Manager (MOM 2005), Systems Management Server (SMS 2003 + ITMU), HP's Insight Manager (HIS), HP Open View (HPOV) HP's Rapid Deployment Pack (RDP), and Symantec AntiVirus Corporate Edition (SAV 10.1).
 ? Lead Migration Engineer at Quintech Resources/Sovereign Bank: HP's Rapid Deployment Pack – Software used to build, configure, and deploy HP Servers and Blade Systems (DC, Exchange, File & Print (ALL 2000 TO 2003)), and HP Insight Manager for alerts and monitoring. HP DL360 and DL380 Series Servers, and BL25e Blade System were used.
 ? Network Configuration Manager at ACS Government Services Group/Lockheed Martin Government Group Served on team that went from conceptual design to implementing a regional NOC's for the Air Force Reserve Command and investigated .net services for ease of command wide communications. Also, on team that designed and deployed BlueCoat Proxy and Cache Devices throughout the Command and 2000 to 2003 Exchange Migration.

EXPERIENCE:

Concertive (Contracted to Keystone Mercy Health Plan)
Philadelphia, PA April 2010 to Present
Senior Windows Systems Engineer
Provide a health check on backup environment (Symantec NetBackup on Windows and Unix Servers and appliances); recommend and execute recommendations to better improve Netbackup system for reliability, performance and flexibility. Create virtual (VMware) systems for testing and as back-out plan.

Gentechpgh, Inc. (Contracted to Fedex, Inc.)
Coraopolis, PA April 2009 to March, 2010

Senior Windows Systems Engineer

Participated, as lead engineer, on a project contract to migrate from HP Openview 7.5 to OpenView Operations Manager 8.1, in a total HP hardware environment; project documentation and staff training. Secondly: served on VMWare team as well as the WINTEL security and the change management committees, and trained existing staff on SCOM 2007.

Freelance efforts

Philadelphia, PA December 2008 to March 2009

IT Contractor

Website design (4), 2 installations of VMWare with Dell Powervaults housing virtual servers, Desktop imaging and deployment. All of the above included documentation and training.

Mindteck, Inc. (Contracted to HP/Pepsico.)

Enola, PA March 2008 to November 2008

Senior Windows Engineer/Windows Team Lead

Resume for:

Nathaniel Smith, Jr.

(Experience Continued)

Use VMWare 3.5 (Console 2.5) to facilitate Global migration for Pepsico. Design and deploy both test lab test software and methodology to find the most secure and effective way of carrying out the global migration. Use both Acronis Echo Imaging and Plate Spin Power Converter for imaging and conversion to VM servers along with ADMT. Setup and configure a 600 TB HP EVA SAN to house virtual servers. Technical responsibility for 4 team members onshore, and 10 team members offshore; providing tier 4 support for VMWare and Windows Servers, mentoring, and workload coordination. I also served on the Change Committee using OVSD. As a secondary function, I lead the migration from SMS 2003 to SCOM 2007.

Pomeroy Solutions (Contracted to Home Depot): January 2008 to March 2008

Philadelphia, PA – Region

Refresh Technician – Ongoing part-time project replacing all store Wintel computer systems including Servers, workstations and printers, assuring connectivity and functionality (handling root cause for problem and/or incidents).

The Latimer Group (Contracted to McGraw-Hill Companies): June 2007 to December 2007

New York, NY

Senior Windows Engineer/Global Operations & Infrastructure (GO&I)

Six month project upgrading 700 Wintel servers to Symantec 10.1.5 including bringing up 3 Symantec CE servers, and short term Project Manager for Symantec project; in

place and new server upgrades to Windows 2003 including Class B Blade Servers with HBA connection to SAN; Active Directory maintenance; Design and implementing VMWare ESX 3.0, 3.02 and 3.5 in a test lab environment. I also lead the implementation of SCCM and SCOM 2007, and served on the Change Committee and performed root analysis for any problems or incidents.

TAC Worldwide (Contracted to John Hancock Insurance; 3 month):

Boston, MA February 2007 to June 2007

Senior Windows Management Engineer/Global Server Team

Serving as Senior Windows Engineer, the tuning and tweaking of MOM 2005, HIS, Active Directory, and SMS 2003 (using KixCripting and WSH; including WSUS and ITMU), then architecting a migration to SCCM AND SCOM, were the main function of this position. Server builds, imaging (both Ghost and Altiris (RDP)), and tier 4 support were secondary functions (all on Wintel platforms). Working with Project Managers and often serving as a Project Manager where various Projects were taken from design to production.

DePaul and Associates (Contracted to Alcoa, Corp. 3 months):

Alco Technical Center, PA November 2006 to February 2007

SMS Administrator for North America

Serving as part of Global SMS Team to design and implement ITMU (migrating from WSUS), also reconfiguring Active Directory. Also served on the Global Information Server Team managing Wintel platforms. Completely using Windows 2003 Serves (IBM X Series Hardware including Blade Systems), and the Global Informational Services Team supporting client requests using Remedy Help Desk Tickets. Also served with the North American VM Ware services team.

Quintech Resources (Contracted with Sovereign Bank Corp.; 1 year +):

Reading, PA July 2005 to October 2006

Lead Migration Engineer

Design and implement migration of 1200+ Wintel Servers from NT to Active Directory and Windows 2003 along with SQL Databases and Exchange 5.5 to 2003. Installing and redesigning the use of HP Openview. Lead on the HP Blade Systems conversion using Blades connected to SANs using HBAs, to take the place of many of the production Servers. Use HP Rapid Deployment Pack to build, configure, deploy and manage Blade Systems, implementing VMWare ESX in a LAB environment and building of cluster servers for Exchange 2003. SMS 2003 (using KixCripting and WSH), and WSUS Administration. Worked with the Fair Isaac packages along with policies adhering to SOX. Evaluate and implement changes to the Recovery Plan using Veritas NetBackup (BMR). Provided tier 4 Server Support, workload coordination and mentoring for junior administrators.

The Computer Merchant LTD (Contract with Computer Science Corporation/Westinghouse Corp.; 9 months):

Monroeville, PA November 2004 to June 2005

Senior Management Information Specialist:

Project Management to design the implementation of the migration to SMS 2003R3 (using KixCripting and WSH), along with associated SQL Server and databases. Active Directory, GPO and WSUS administration on Wintel platforms. Rollout of Cisco Security Agent; McAfee Virus Scan Enterprise and E Policy Orchestrator, and using VMWare ESX in a Wintel LAB environment. Implementation of File Server disaster recovery plan using Veritas Backup Exec. Along with

Resume for:

Nathaniel Smith, Jr.

(Experience Continued)

Workstation Configuration (Loadset) Administration and Tier 3 Help Desk Support. Participate on Network and Server Teams as needed.

ACS Government Services Group/Lockheed Martin Government Group (Employee):

Pittsburgh ARS, PA April 2000 to October 2004

Network Configuration Manager /Team Leader:

The Configuration Manager is responsible for all Wintel computers on the network (MS 2003 Wintel Servers w/Active Directory and GPO, along with XP workstations), specializing in the adherence to Security and Vulnerability methods as dictated by the Department of Defense, Trusted Facilities Manual. Design and implement Disaster Recovery Plan using Veritas Backup Exec, SMS 2003 (using KixCripting and WSH), WSUS and Exchange 2000/2003 configuration, implementation and administration. This includes the evaluation, testing and integration of new technology, methodologies, capacity planning and technical support in order to ensure optimum system integrity and volume response, ie; evaluation of VMWare's ESX for use in lab and production environment, and served as Head of the Help desk and provided Tier 3 support. Instituted the use of Symantec's Ghost to create images to standardize distribution of all workstations for ease of support, and Symantec's Antivirus Corporate Edition Server to provide virus protected for the network. As Team Leader, I participated in the: interview process and recommendation of

prospective new team members, annual reviews, mentoring and provide general leadership and direction. Secondary responsibilities included the day-to-day management and maintenance of the content delivery networking equipment including proxies, reverse proxies, content switching, SSL termination and other Internet technologies including the management all SSL certificates and External DNS services, which included Cisco LAN/WAN equipment, TCP/IP Management, Internet Access and Firewall products.

Intelligent Imaging, Inc./ Quintiles Transnational Corp. (Employee) :
Plymouth Meeting, PA September 1997 to March 2000
Network Manager/Senior Network Engineer:

Directly lead a Department of 5 (with budgetary responsibility as well as the purchase of equipment and services), reporting to the Director of Informational Services (USA). Had indirect responsibility for 28 sites in the Eastern US, controlling of approximately 200 NT Wintel servers for Domain Controllers, DHCP, DNS, Cluster, Terminal, SMS, and Exchange (only for legacy purposes), with about 9500 users. There were 4 IIS Wintel servers in 3 different Sites are up and running and 10 SQL and Terminal Wintel servers running various things from Citrix Metaframe and PeopleSoft applications to CA Unicenter TNG and SMS. Served as Tier 3 support for server and workstation problems. Served on the global Systems & Technology Service Management Committee to develop technology and applications strategy. The position was eliminated through Corporate consolidation.

Elektroson, Inc.:

San Jose, CA July 1993 to August 1997

Support Services Supervisor:

Served as Software Alpha testing for company product; Alpha and Beta testing for Microsoft/Elektroson, joint venture, for Windows NT 5.0 (then Cairo, now Windows 2000) Wintel Platform; and Unix System Administrator – Server and workstation – for program development and testing (Both in the US and Netherlands), primarily SUN Solaris/OS & 5 other flavors. Created and managed customer technical support center. Windows NT Administrator converting from Netware 3.12 to Windows NT 3.51. Participate in design of original company web site (Apache). Use Linux servers for a firewall.

US Department of Housing:

Philadelphia, PA January 1990 to July 1993

Consultant:

Participated in a team that Beta test Database program written by Price-Waterhouse for fund tracking and the loading of historic information, Installed entire new network (Switches, hubs, Servers and workstations), trained local HUD staff, and served as help desk.

Aileron Data Systems, Inc.:

Philadelphia, PA June 1986 to January 1990

Partner/Accounting System Specialist:

Survey customer needs, Design system including networking, Install system including software, Train client personnel, Document system and training.

Accounting positions prior to 1980.

Resume for:

Nathaniel Smith, Jr.

(Computer Skills - Continued)

COMPUTER SKILLS:

HARDWARE:

Servers – ? Wintel - Dell PowerEdge series; IBM E-Servers; Compaq ProLiant, ProLiant DL and ML series and Blade Servers
? Sun Enterprise 250 and 450 Servers.

Network Devices – ? MetaStor 24 TB External SCSI Storage Array; Dell PowerVault 220S External SCSI Storage Array, Dell/EMC NS500G NAS gateway, and Maxtor series NAS, Clariion's Symmetrix Storage Array

? StorageTek's L5000 with expansion to 130 TB DLT Tape Storage Library, StorageTek L-40 Tape Library, TimberWolf 9740 tape library, and Qualstar TLS 4660 8 TB ATI Tape Library.

? BlueCoat Cache/Proxy Server Device

? HP EVA Series SAN, Print Server Devices, Network Printer and Multifunction Devices.

Networking – Cisco – Routers – 2500, 4500 (with Supervisor Engine V-10GE for layer 3 V-LANs) and 6500 (with Supervisor Engine and Voice over IP Cards) Series, and the 7206.

Switches – Most Layer II, Layer III, and IP 6 ready.

Hubs – Most Series

OPERATING SYSTEMS:

Server – Windows NT (from 3.50): 2000 (Standard and Advanced); 2003 (Standard, Advanced and Enterprise)

SUN Solaris 2.51 to 2.8; Linux (Redhat) 3.0 to 6.51

Networking – Cisco IOS up to 12.3; Novell & Netware 3.0 thru 4.11; LANtastic 6.0+

Network Health – Cisco Works; HP Open View; HP Lights Out; Dell's Open Manager; Big Brother

PROGRAMMING LANGUAGES: Familiar with Perl, Visual Basic 2.0+ and KixCripting 1.5 +.

EDUCATION:

Wilberforce University

Wilberforce, OH

B.A., Business Administration and Accounting

Computer Learning Center

Philadelphia, PA

Microsoft Certified System Engineer (MCSE) 1995

Cisco Certified Network Associate (CCNA) 1998

Microsoft Certified System Engineer 2000 (MCSE 2000) 2000

Air Force Reserve Command Training Center

Robins AFB, GA. and Kessler AFB, MS; for certification to Air Force Standards.

Microsoft lead training Exchange 5.5 Administrating 2000

Microsoft lead training SMS 2.0 2000

Air Force lead training Veritas Backup Exec 8.0 2001
 Microsoft lead training MOM 2000 2001
 NSA lead training Network Security 2001
 Cisco lead training Router and Switch Administrating 2002
 Air Force lead training KixTart and KixCripting 2002
 Microsoft lead training Windows XP Administrating 2002
