Career Achievements

Founder of Thomas Consulting LLC, responsible for business and technical roles including, outsourced IT management, technology consulting, and digital radiography integration for successful dental practices in Maine.

Designed and deployed a solution that delivers virtual Windows desktops on Mac laptops and allows secure HIPPA compliant remote access to patient information systems for healthcare providers to consult with patients when the providers are away from the office.

Designed and deployed a VDI (virtual desktop infrastructure) solution that replaced desktop computers in the classroom with virtual desktops on blade workstations to consolidate management and create cost savings and enhanced capability.

Complete physical and logical network redesign and deployment for school system. Project included adding managed switching, fiber interconnects, perimeter security, network monitoring, Active Directory design and deployment, server virtualization, group policy deployment, and automated workstation management.

Developed curriculum and delivered instruction to students and faculty on computer aided design and manufacturing including 3D modeling, rapid prototyping, milling, turning, laser cutting, controls, gcode, and workflow simulation.

Worked with school director's association leadership and a working committee to develop requirements, design the architecture and user interface, provide project management services and hosting for a statewide web based student information system.

Responsible for the daily data backup and management tasks for the northern region data centers at MBNA America including writing backup jobs, monitoring jobs, reporting and resolving issues, complying with information security protocols, handling restore requests, and physical archival of backup media.

After applying for a position as a helpdesk professional at MBNA America with no former experience, became Microsoft Certified (NT Workstation) in one week at the request of the hiring manager. (Yes, I did get the job; no I did not sleep that week.)
